

Medicinal Orchid *Habenaria plantaginea* Lindl. based Herbal Formulations used for Pulmonary tuberculosis (TB) in Indian Traditional Healing: Pankaj Oudhia's Ethnobotanical Surveys 1990-2012

Pankaj Oudhia

Introduction

The Indian Traditional Healers use Medicinal Orchids most commonly as compared to the Healers of other parts of the world but unfortunately serious efforts have not been so far to document Traditional Medicinal Knowledge about it. In new as well as old cases of Pulmonary Tuberculosis the Traditional Healers use Medicinal Orchids based Formulations. *Habenaria plantaginea* Lindl. based Formulations are used at advanced stage. The Healers of different regions use different herbal ingredients in these Formulations. Pankaj Oudhia has documented this important Traditional Knowledge and presented it in form of scientific report through his Medicinal Plant Database. Present document gives glimpses of the report.
